What is Renaissance Home Connect[™]?

Renaissance Home Connect[™] is... Connecting Parents and Extending Practice

Renaissance Home Connect improves the school-to-home connection by allowing parents and students to log in to a website and view their student's reading and math practice and progress towards goals. Access to online results promotes discussion between parent and student, which motivates students and can make reading and math practice even more effective. In addition, parents can specify up to six email addresses to receive automatic updates on their student's math and reading progress.

Renaissance Home Connect is accessible to all Accelerated Reader Enterprise, Accelerated Math Enterprise and MathFacts in a Flash customers.

Two steps are required to get Renaissance Home Connect up and running:

- 1. An administrator clicks the Set Up Renaissance Home Connect and Activate Schools links on the Renaissance Place home page and follows the instructions.
- 2. Once activated, teachers click the Informational Letter link on the Renaissance Place home page and print the letters to be sent home. If you are a teacher reading this, your administrator has already activated Renaissance Home Connect.

Practices and Exercises

- If you have the scoring preference turned on, students can score practices and exercises from home by filling in the electronic scan card just like they would a paper one.
- Students can reprint existing math assignments and exercises from home.
- Students can search or browse for math terms and see a definition and example for each.
- · Sample problems for each objective are provided to help students with their homework.

Connecting Parents Through Email

Parents can receive automatically generated emails about their student's progress in reading and math when they take an Accelerated Reader quiz or Accelerated Math test, or complete a MathFacts level.
